Uniform Crime Report

Printed Annually
Guam Police Department
Planning, Research and Development

Foreward, *Crime in Guam, 2014*

The Uniform Crime Reporting (UCR) Program was established by law enforcement in order to meet the need for crime statistics used in operational planning and policymaking. The purpose of the UCR Program is to collect accurate and pertinent crime data for the daily use of law enforcement.

Narratives, graphics, and tabular portions highlight trends identified in the reported figures for the year.

In addition to our law enforcement agency, the vast compilation of data serves a large and varied audience. The Program's data users who formulate policies, make strategic and operational decisions, and conduct criminological research and analysis include members of the criminal justice community, governmental agencies, legislators, researchers, students, the media, corporate managers, and the general public. The Program's data are essential for those seeking to understand the nature and extent of crime in Guam.

The Uniform Crime Reporting (UCR) Program serves as a long standing example of how the island can benefit when information flows freely among local police commands. The cooperative efforts to provide their jurisdictions' crime reports enable the Guam Police Department (GPD) to present an island view on crime.

In 2000, GPD took an advance step in developing a Records Management System that will provide the information needed to generate UCR data. The Guam Police Department's goal is to provide a reliable set of crime statistics for use in law enforcement administration, operations, and management.

In addition to meeting national UCR Program standards, definitions, and information required, the Guam Police Department also provides statistical data beyond the national collection standards. The collection of additional data for submission in the national program may provide the Guam Police Department with funds to underwrite projects designed to reduce crime and improve public safety. To support local legislation, GPD also provides local lawmakers a trustworthy set of statistics which empower them to design a criminal justice system that is capable of responding to current crime trends.

The resulting valuable data source is used in a multitude of applications. Information sharing has become a priority as law enforcement works together to enhance criminal justice information network, to investigate crimes and to prevent terrorist acts. The UCR Program continues to be a resource for crime in Guam and it is our hope that the 2014 *Crime in Guam* issue will help law enforcement leaders make the best possible decisions to secure safety and prosperity in our communities.

Joseph I. Cruz
Chief of Police

Crime Factors

Caution Against Ranking/Categorizing

Each year when Crime in Guam is published, the Guam Police Department places caution in the ranking or categorizing levels of crime specific to the villages in the jurisdiction. The use of reported figures to determine how villages "rank" amongst each other, without the consideration of other demographics or variables beyond the scope of this publication, provides a risk of error or omission. Consequently, "ranking" may lead to incomplete analysis that often creates misleading perceptions that can adversely affect village residents and businesses.

Characteristics of a jurisdiction

To assess criminality and law enforcement's response from jurisdiction to jurisdiction, one must consider many variables, some of which, while having significant impact on crime, are not readily measurable or applicable pervasively among all locales. Geographic and demographic factors specific to each jurisdiction must be considered and applied if one is going to make an accurate and complete assessment of crime in that jurisdiction. Several sources of information are available that may assist the responsible researcher in exploring the many variables that affect crime in a particular locale. The U.S. Census Bureau data, for example, can be used to better understand the makeup of a locale's population. The transience of the population, its racial and ethnic makeup, its composition by age and gender, educational levels, and prevalent family structure are all key factors in assessing and comprehending the crime issue. The local chamber of commerce, planning offices, or similar entities provide information regarding the economic and cultural makeup of communities/villages here in Guam. Understanding a jurisdiction's industrial/economic base; its dependence upon neighboring jurisdictions; its transportation system; its economic dependence on nonresidents (such as tourists and off island business visitors); its proximity to military installations, correctional facilities, etc., all contribute to accurately gauging and interpreting the crime known by law enforcement.

The strength (personnel and other resources) and the aggressiveness of a jurisdiction's law enforcement agency are also key factors in understanding the nature and extent of crime occurring in that area. Although the information pertaining to the number of sworn law enforcement employees can be found in this publication. It cannot be used alone as an assessment of the emphasis that a community places on enforcing the law. For example, one village may report more crime than a comparable one, not because there is more crime, but rather because its law enforcement agency through proactive efforts identifies more offenses. Attitudes of the citizens toward crime and their crime reporting practices, especially concerning minor offenses, also have an impact of the volume of crimes known to police.

Some factors that are known to affect the volume and type of crime occurring from place to place are:

- Population density and degree of urbanization.
- Variations in composition of the population, particularly youth concentration.
- Stability of population with respect to resident's mobility, commuting patterns, and transient factors.
- Modes of transportation and highway system.
- Economic conditions, including median income, poverty level, and job availability.
- Cultural factors and educational, recreational, and religious characteristics.
- Family conditions with respect to divorce and family cohesiveness.
- Climate.
- Effective strength of law enforcement .
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probation).
- Citizens' attitudes toward crime.
- Crime reporting practices of citizenry.

SECTION I

Summary of the Uniform Crime Report

Summary of the Uniform Crime Reporting (UCR) Program

Eight main offense classifications, known as Part I Crimes, were chosen to measure fluctuations in the overall volume and rate of crime in the nation, which includes Guam. These eight offense classifications include the violent crimes of; murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, and the property crimes of: burglary, larceny- theft, motor vehicle theft, and arson. These offenses are classified according to Hierarchy Rule, with the exception of justifiable homicides, motor vehicle theft, and arson. In the UCR Program, justifiable homicide is defined as and limited to;

- 1). The killing of a felon by a peace officer in the line of duty.
- 2). The killing of a felon, during the commission of a felony, by a private citizen.

Hierarchy Rule

The experience of law enforcement agencies in handling UCR data shows that, for the most part, offenses of law occur singly as opposed to many being committed simultaneously. In these single-offense situations, law enforcement agencies must decide whether the crime is a Part I Offense. If so, the agency must score the crime accordingly. However, several offenses are committed at the same time and place by a person or a group of persons, a different approach must be used in classifying and scoring. The law enforcement matter in which many crimes are committed simultaneously is called a multiple offense situation. As a general rule, a multiple offense situation requires classifying each of the offenses occurring and determining which of them are Part I crimes. The Hierarchy rule requires that when more than one Part I is classified, the law enforcement agency must locate the offense that is highest on the hierarchy list and score that offense involved and not the other offense(s) in the multiple-offense situation. The Hierarchy Rule applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts. The offenses of justifiable homicide, motor vehicle theft and arson are exceptions to the Hierarchy Rule.

Classifying Offenses

Classifying is determining the proper crime categories in which to report offenses in UCR. The classification of the offenses is based on the facts of an agency's investigation of a crime.

Generally, agencies classify attempts to commit a crime though the crimes were actually completed. The only exception to this rule applies to attempted murder or assaults to murder wherein the victim does not die. These offenses are classified as aggravated assaults rather than attempted murders.

Unusual situations will arise in the effort to classify offenses. In classifying unusual situations, agencies should consider the nature of the crime.

Suicides, traffic fatalities, and fetal deaths are excluded from the UCR Program. However, some accidental deaths are classified as Criminal Homicides—Manslaughter by Negligence. Attempts and assaults to murder are classified as aggravated assaults.

Situations in which a victim dies of a heart attack as the result of a crime are not classified as criminal homicide. A heart attack cannot be caused at will by an offender.

Separation of Time and Place Rule

Occasionally, an individual or a group will perpetrate a number of offenses over a short period of time. If there is a separation of time and place between the commission of several crimes, the reporting agency must handle each crime as a separate incident and must classify and score each offense individually.

"Same time and place" means that the time interval between the offenses and the distance between locations where they occurred are insignificant. Normally, the offenses must have occurred during an unbroken time duration and at the same or adjoining locations. However, incidents can also be comprised of offenses which by their nature, involve continuing activity to constitute a single criminal transaction.

"Because it is not possible to provide instructions that will cover all of the situations that might occur, in some cases the reporting agency will have to use its best judgment in determining how many incidents were involved".

Section II Offenses Reported

Violent Crime

Definition

Violent crime is composed of four offenses; murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault. Violent crimes involve force or threat of force.

Volumes, Trends, and Rates

In 2014, there were 547 violent crimes reported islandwide. Of these, aggravated assault comprised of 54.0 percent; robbery 23.4 percent; forcible rape was 22.0 percent; and murder accounted for 1.3 percent.

The UCR Program examines data in increments of 2, 5, and 10 years to formulate trend information. Violent crimes in 2014 increased 27.0 percent compared to 2004 data and 62.3 percent compared to 2010 data.

The occurrence of violent crime throughout the island in 2014 was estimated at a rate of 3.4 percent violent offenses per 1,000 inhabitants. The volume of individual offenses within the violent crime category showed that in a year-to-year comparison of 2013 and 2014 data, the number of aggravated assault decreased 26.7 percent, robberies decreased almost 12.0 percent (11.7), and murder decreased 12.5 percent. Forcible rape increased 11.3 percent when compared to 2013.

Offense Trends and Rates

In terms of the rate of offenses for each of the four violent crimes, aggravated assault reflected the highest rate at about 2.0 percent (1.8) offenses per 1,000 inhabitants. There were about 1.0 percent (0.8) robberies, 0.7 percent were forcible rapes, and 0.04 percent for murders

For UCR reporting, Guam is grouped into two districts: District I, Dededo Precinct Command and Tamuning-Tumon Precinct Command, District II - Hagatna Precinct Command and Agat Precinct Command. The population distribution of the districts, by village is provided on page

A look at the volume of violent crimes in 2014, by village showed that an estimated 3.0 percent of violent crimes occurred in the village of Dededo. The violent crime rates were estimated at about 3.4 percent violent offenses per 1,000 inhabitants.

UNIFORM CRIME REPORT

PART I CRIMES

Murder

Definition

The Uniform Crime Reporting (UCR) Program defines murder and nonnegligent manslaughter as the willful (nonnegligent) killing of one human being by another.

The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. The UCR Program does not include the following situations in this offense classification: deaths caused by negligence, suicide, or accident; justifiable homicides and attempts to murder or assaults to murder, are classified as aggravated assaults.

Volume, Trends, and Rates

The UCR Program's 2014 homicide data showed the number of murders in Guam slightly decreased 12.5 percent when compared to 2013. There were 7 homicide cases reported in 2014 with 7 victims.

An analysis of 5 years trend data showed the number of murders remained low with the lowest at 3 reported homicides in 2010 and 2012, in 2011, 6 reported, 2013 was the highest within the 5-year trend with 8 reported homicides. In 2014, three homicides cases were reported for the month of April, and 1 each in January, July, August, and September, a total of 7 reported homicides.

The 2014 data yielded a rate of 0.04 murders per 1,000 inhabitants. All five years reflected very low numbers reported with 3 murders and the highest with 8 in 2013.

This section of violent crimes provide more information regarding the age, sex, and race of the murdered victims and the offenders. The type of weapon used in the offense, the relationship of the victims to the offenders, and the circumstances surrounding the cases, are also included within this section.

Forcible Rape

Definition

Forcible rape, as defined in the Uniform Crime Reporting (UCR) Program, is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) and other sex offenses are excluded.

Offense Methodology

The UCR Program counts one offense for each female victim of a forcible rape, attempted forcible rape, or assault with intent to rape, regardless of victim's age. The Program classifies as Part II offenses all other crimes of a sexual nature and, as such, collects only arrest statistics concerning them. Statutory rape, in which no force is used but the female victim is under the age of consent, is included in the aggregated arrest total for the sex offenses category. Sexual assaults on males are counted as aggravated assaults or sex offenses, depending on the circumstances and the extent of any injuries.

Robbery

Definition

The Uniform Crime Reporting (UCR) Program defines robbery as the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Robbery is a vicious type of theft in that it is committed in the presence of the victim. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or is put in fear that force will be used. robbery involves a theft or larceny but is aggravated by the element of force or threat of force.

Volume, Trends, and Rates

There were 128 robberies reported to police in 2014. Five- and 10-year trend data indicated that the number of robberies in 2014 decreased 11.7 percent when compared to 2013 figure and a decrease of 23.1 compared to 2004. Robbery accounted for 53.7 percent of all violent crimes. The five-year trend data also showed that robbery offenses in 2014 occurred at the rate of 0.8 percent per 1,000 inhabitants.

The type of weapons used in this offense, robbery trends by location, arrests and arrest trends are also included within this section.

Aggravated Assault

Definition

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is accompanied by the use of a weapon or by means likely likely to produce death or great bodily harm.

The UCR Program considers a weapon to be a commonly known weapon (a gun, knife, club, etc.,) or any other item which, although not usually thought of as a weapon, becomes one in the commission of a crime. The categories of Aggravated Assault (4a-4d) includes assaults or attempts to kill or murder, poisoning, assault with a dangerous or deadly weapon, maiming, mayhem, assault with explosives, and assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.,) All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as Aggravated Assault. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon that could cause serious personal injury is used.

It is the practice of local jurisdictions to charge assailants in assault cases with assault and battery, disorderly conduct, domestic violence, or simple assault even though knife, gun, or other weapon was used in the incident. This type of offense is reported to the UCR Program as Aggravated Assault (4a-4d).

Property Crime

Definition

In the Uniform Crime Reporting (UCR) Program, property crime includes the offenses of burglary, larceny-theft, motor vehicle theft, and arson. The object of the theft-type offenses is the taking of money or property, but there is no force or threat of force against the victims. The property crime category includes arson because the offense involves the destruction of property, however, arson victims may be subjected to force. Because of the limited participation and varying collection procedures, only limited data are available for arson. Arson statistics are included in trend, clearance, and arrest tables.

Burglary

Definition

The unlawful entry of a structure to commit a felony or a theft. The use of force to gain entry is not required to classify an offense as a burglary. Burglary is categorized into three subclassifications; forcible entry, unlawful entry where no force is used, and attempted forcible entry.

The UCR Program scores as burglary those offenses locally known as burglary (any degree), unlawful entry with intent to commit a larceny or felony, breaking and entering with intent to commit a larceny, housebreaking, safecracking, and all attempts at these offenses.

Hotel Rule

Burglaries of hotels, motels, lodging houses, and other places where lodging of transients is the main purpose are scored under provision of the Hotel Rule. If a number of dwelling units under a single manager are burglarized and the offenses are most likely to be reported to the police by the manager rather than the individual tenants, the burglary is scored as one offense.

Larceny -theft

Definition

The unlawful taking, carrying, leading, or riding away of property from the possession of another.

Constructive possession is defined as "where one does not have physical custody or possession, but is in a position to exercise or control over a thing".

Larceny and theft mean the same thing in the UCR Program. All thefts and attempted thefts are included in this category with one exception: motor vehicle theft.

Larceny-theft Categories

Pocket- picking

Purse snatching

Shoplifting

Theft From Motor Vehicles

Theft of Motor Vehicle Parts and Accessories

Bicycles

Theft From Buildings

Theft From Coin Operated Machines

All Other

Constructive possession is "control or dominion over a property without the actual possession or custody of it".

Larceny and theft are synonymous in the UCR Program. All thefts and attempted thefts are included in this category with one exception: motor vehicle theft. Because of high volume of motor vehicle thefts, this crime has its own category.

For the UCR Program, agencies report local offense classifications such as grand theft, petty larceny, felony larceny, or misdemeanor larceny as larceny-theft. Also, agencies report all larceny offenses regardless of the value of the property stolen.

Agencies do not classify larceny offenses of embezzlement, fraudulent conversion of entrusted property, conversion of goods lawfully possessed by bailees, lodgers, or finders of lost property, counterfeiting, obtaining money by false pretenses, larceny by check, larceny by bailee, or check fraud. Each of these crimes falls within one of the Part II offense categories.

Motor Vehicle Theft

Definition

The Uniform Crime Reporting (UCR) program, defined motor vehicle theft as the theft or attempted theft of a motor vehicle. The offense includes the stealing of automobiles, trucks, buses, motor bicycles, mopeds, etc. The taking of a motor vehicle for temporary use by a person having unlawful access is excluded from this definition.

Motor Vehicle Theft or attempted theft of a motor vehicle, which the UCR Program defines as a self-propelled vehicle that runs on land surface and not on rails, for example, sport utility vehicles, automobiles, trucks, buses, motor scooters, all-terrain vehicles are classified as motor vehicles. This category does not include farm equipment, bulldozers, airplanes, construction equipment, or water craft (motorboats, sailboats, houseboats, or jetskis). Taking a vehicle for temporary use when prior authority has been granted or can be assumed such as in family situations, rental car agreements, or unauthorized use by chauffeurs and others having lawful access to the vehicle is not classified as motor vehicle thefts.

Motor Vehicle Theft—Autos

The category Motor Vehicle Theft—Autos includes the thefts of all sedans, station wagons, coupes, convertibles, sport utility vehicles, minivans, and other similar motor vehicles that serve the primary purpose of transporting people from one place to another. Automobiles used as taxis are also included.

Motor Vehicle Thefts—Trucks and Buses

The category Motor Vehicle Theft—Trucks and Buses includes the theft of those vehicles specifically designed (but not necessarily used) to commercially transport people and cargo. Pickup trucks and cargo vans, regardless of their use, are included in this category. A self-propelled -motor home is considered a truck.

Motor Vehicle Theft—Other Vehicles

The category Motor Vehicle Theft—Other Vehicles includes all other motor vehicles that meet UCR definition such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts, all-terrain vehicles, go-carts, mini-bikes, and motorized wheelchairs.

Arson

Definitions

The Uniform Crime Reporting (UCR) Program, defined arson as any willful or malicious burning or attempting to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, or aircrafts, personal property of another.

According to the UCR Program's guide-lines, only fires that law enforcement determined to have been willfully or maliciously set may be classified as arson. Participating agencies do not report fires of suspicious or unknown origin.

Arson— Structural

In classifying the object of arson as structural, as a permanently fixed house trailer or mobile unit used as an office, residence, or storehouse is considered structural property.

Structures are further divided into two subcategories: residential and nonresidential. The UCR Program considers a residential structure to be any dwelling used for human habitation, including houses, townhouses, apartments, etc.. Residential property not meeting the above criteria are classified as Other Residential . Temporary living quarters such as hotel, motels, inns, are nonresidential property and are self-explanatory.

Arson—Mobile

Motor vehicles by UCR definition is self-propelled and run on land surface and not on rails, for example,, sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles, and snowmobiles are classified as motor vehicles.

Arson—Other

The category Arson—Other subcategory encompasses arson of all property not classified as structural or mobile. Willful or malicious burnings of property such as crops, timber, fences, signs, and merchandise stored outside structures are included in this category.

Cautions in Classifying Arson

Key to properly classifying arson is establishing the point of origin of a fire. In cases where the point of origin is undetermined, or in instances of multiple points or origin, the agency reports the structural, mobile, or other category of property that suffered the greatest fire damage.

Section III Offenses Cleared

Page 67

Offenses Cleared

Law enforcement agencies reporting crime to the FBI can clear, or "close," the offenses in one of two ways: by arrest or by exceptional means. However, the administrative closing of a case by a local law enforcement agency does not necessarily mean that the agency can clear an offense for UCR purposes. To clear an offense within the Program's guidelines, the reporting agency must adhere to certain criteria, which are outlined in the following text. *(Note: The UCR Program does not distinguish between offenses cleared by arrest and those cleared by exceptional means in its data presentation. The distinction is made solely for the purpose of a definition and not for data collection and publication.)*

Cleared by Arrest

In the UCR Program, a law enforcement agency reports that an offense is cleared by arrest, or solved for crime reporting purposes, when at least one person is:

- Arrested
- Charged with the commission of the offense
- Turned over to the court for prosecution (whether following arrest, court summons, or police notice).

To qualify as a clearance, all of the conditions listed above must have been met. In its calculations, the UCR Program counts the number of offenses that are cleared, not the number of arrestees. The arrest of one person may clear several crimes, and the arrest of many persons may clear only one offense. In addition, some clearances that an agency records in a particular calendar year, such as 2014, may pertain to offenses that occurred in previous years.

Cleared by Exceptional Means

In certain situations, elements beyond law enforcement's control prevent the agency from arresting and formally charging the offender. When this occurs, the agency can clear the offense exceptionally. Elements beyond the law enforcement's control prevent the agency from arresting and formally charging the offender. When this occurs, the agency can clear the offense *exceptionally*. There are four Program requirements that law enforcement must meet in order to clear an offense by exceptional means. The agency must have:

- Identified the offender.
- Gathered enough evidence to support an arrest, make a charge, and turn over the offender to the court for prosecution.
- Identified the offender's exact location so that the suspect could be taken into custody immediately.
- Encountered a circumstance outside the control of law enforcement that prohibits the agency from arresting, charging, and prosecuting the offender.

Examples of exceptional clearances include, but are not limited to, the death of the offender (e.g., suicide or justifiably killed by police or citizen); the victim's refusal to cooperate with the prosecution after the offender has been indentified; or the denial of extradition because the offender committed a crime in another jurisdiction and is being prosecuted for that offense.

Clearances Involving Only Persons Under 18 Years of Age

When an offender under the age of 18 is cited to appear in juvenile court or before other juvenile authorities, the UCR Program considers the incident for which the juvenile is being held responsible to be cleared by arrest, although a physical arrest may not have occurred. In addition, according to Program definitions, clearances that include both adult and juvenile offenders are classified as clearances for crimes committed by adults. Therefore, because the clearance percentages for crimes committed by juveniles include only those clearances in which no adults were involved, the figures in this publication should not be used to present a definitive picture of juvenile involvement in crime.

Section IV Persons Arrested

Persons Arrested

In the Uniform Crime Reporting (UCR) Program, one arrest is counted for each separate instance in which an individual is arrested, cited, or summoned for criminal acts as in Part I and Part II crimes. One person may be arrested multiple times during the year; as a result, the arrest figures in this section should not be viewed as a total number of individuals arrested.

More than one charge could be lodged during each arrest, but only one arrest is counted for each instance. For example, a person may be arrested on several charges at one time, in this situation, only one arrest under the most important offense category as determined by the arresting officer. Likewise, one person may be arrested many times during a month for similar or different violations within a jurisdiction. Because of separation of time between arrests, each arrest is counted separately. In addition, arrest data collected daily are compiled and reported monthly. These reports also provide data on the number of arrests by age, sex, race, and ethnicity.

Race, Sex, and Age

The number of persons taken into custody for an offense is entered according to age and sex. Then the number of persons taken into custody according to race, without regard to sex.

The racial designations are defined as follows:

White ---A person having origins in any of the original peoples of Europe, the Middle East, or North America

Black or African American ---A person having origins in any of the black racial groups of Africa.

American Indian or Alaska Native---A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.

Asian---A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Native Hawaiian or Other Pacific Islander---A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands, e.g., individuals who are Carolinian, Fijian, Kosraean, Melanesian, Micronesian, Northern Mariana Islander, Palauan, New Guinean, Ponapean (Pohnapaian), Polynesian, Solomon Islander, Tahitian, Tarawa Islander, Tokelauan, Tongan, Chuukese, Marshalese, and Yapese.

Section V Special Reports

Juvenile Offenders

The UCR Program considers a juvenile to be an individual under 18 years of age. Law enforcement agencies do not record an arrest for incidents in which police contact a juvenile who has committed an offense or those situations in which police take juvenile into custody for his own protection, e.g., neglect cases.

The word *arrest* as it applies to juveniles is intended to mean the law enforcement handling of all juveniles who have committed a crime and are taken into custody under such circumstances that, if the juvenile were an adult, an arrest would have been counted. Police contacts with juveniles where no offense has been committed and instances wherein juveniles are taken into custody for their own protection are not included as arrests.

Police include only juvenile violations where police or official action is taken beyond a mere interview, warning, or admonishment. For example, children playing ball in the street who are instructed by an officer to go to the playground for such activity would not be counted as arrested any more than an adult who is only warned against burning leaves on a windy day. Call backs or follow-up contacts with young offenders by officers for the purpose of determining their progress is not counted as arrests. Statistics on juvenile offenders are gathered to measure criminal activity, not juvenile court activity.

Police Disposition of Juveniles (Not Including Neglect or Traffic Cases)

Disposition data in this section are data concerning the law enforcement disposition of juveniles who are taken into custody or arrested. Depending on the seriousness of the offense and the offender's prior criminal record, a juvenile may be warned by the police and released to parents, relatives, friends, or guardians. Juveniles may also be referred to the probation department or some other branch of the juvenile court, to welfare agencies, to other law enforcement agencies, or in the case of serious offenders, to criminal or adult court by waiver of the juvenile court.

The following specific guidelines are entries in the Police Disposition of Juveniles:

1. Handled within the department and released. (Warning, released to parents, etc.).
2. Referred to juvenile court or probation department.
3. Referred to welfare agency.
4. Referred to other police agency.
5. Referred to criminal or adult court.

Drug Abuse Violations

Definition

The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

The UCR Program collects information on arrests for drug abuse violations based on the narcotics involved. Agencies include all arrests for violations, including attempts, and subdivide the arrests by differentiating between Sale/Manufacturing and Possession.

Sale/Manufacturing

- a. Opium or cocaine and their derivatives (morphine, heroin, codeine)
- b. Marijuana

- c. Synthetic narcotics—manufactured narcotics which can cause true drug addiction (Demerol, methadones)
- d. Dangerous nonnarcotic drugs (barbiturates, benzedrine)

Possession

- e. Opium or cocaine and their derivatives (morphine, heroin, codeine)
- f. Marijuana

- g. Synthetic narcotics—manufactured narcotics which can cause true drug addiction (demerol, methadones)
- h. Dangerous nonnarcotic drugs (barbiturates, benzedrine)

COMMONLY USED DRUGS

Drug	Street Name	Ingestion	Symptoms	Health Hazards
Alcohol 6 to 10 hours	beer, wine, liquor	oral	loss of coordination, slurring of speech, impaired judgement, slow reaction time	Liver damage, "wet brain", can cause death
Benzodiazepines 1 to 6 weeks	roofies, tranquis, valium, Xanax, Ativan, Librium	oral	decreased motivation, slow breathing, weakness, sleepiness	coma, damage to brain and liver
Cocaine/Crack up to 72 hours	cola, snow, free base, 181, rock, flack	sniffed, snorted, smoked or injected	high energy, talkative, alert, sensitivity to light, sound & touch	highly addictive, erratic heartbeat, seizures, sudden death, destroys nasal membranes
Club Drugs up to 5 days	ecstasy, XTC, MDMA, Adam, roofies, date rape, Special K	oral, mixed with carbonated drinks	tired, confused, amnesia, sense of heightened well being	ecstasy in high doses can be fatal, convulsions, coma, increased body temp
Marijuana sgl use 2-5 days moderate 6-12 days heavy 14-20+ days	blunt, grass, herb, pot, reefer, weed, smoke, hash	oral, smoke	sleepiness or dizziness, red blood shot eyes, impaired judgement	reduced attention span, memory imbalance, physical withdrawal, genetic changes
Methamphetamine up to 72 hours	speed, crystal, chalk, meth, crank	gel capsule, snorted or injected	hyperactive, talkative, pupils constricted	upsets brain chemistry, movement disorder, resembling Parkinson's disease
Nicotine 1 to 2 days	cigarettes, cigars, smokeless tobacco, snuff, Nicorette gum, Nicotrol spray, Habitrol patch	smoked, sniffed, oral	short term stimulant	brain, heart and lung damage, cell damage in retina, cancer
Opiates/Morphine 1 to 2 days	tootsie roll, smack, tylenol w/codaine, horse, Dover's Powder, Emprin w/codaine, Fiorinal w/codaine, vicodin	injected, oral, smoked, analgesic	sense of euphoria, lack of judgement, constricted pupils, digestive problems, panic attacks, anxiety, respiratory slow down, withdrawal from family	"brain melt down", digestive problems, liver disease, HIV/AIDS, heart & lung damage, suicidal
Oxycodone	oxy, o.c. killer	swallowed, snorted, injected	sense of euphoria, lack of judgement, constricted pupils, digestive problems, panic attacks, anxiety, respiratory slow down, withdrawal from family	"brain melt down", digestive problems, liver disease, HIV/AIDS, heart & lung damage, suicidal

Family Violence

Definition

Unless indicated otherwise, family violence includes all types of violent crimes committed by an offender who is related to the victim either biological or legally through marriage or adoption. A crime is considered family violence if the victim was the offender's current or former spouse, parent or adoptive parent, current or former stepparent, legal guardian, biological or adoptive child; current or former stepchild; sibling; current or former step sibling; current or former step-or adoptive-grandchild; grandparent; current or former adoptive-grandparent; in-law; or other relative (aunt, uncle, nephew, niece).

Violent Crime Unless indicated otherwise, statistics on violent crime in the report pertain to all forms of the following crimes; criminal homicide, completed or attempted rape, sexual assault (including threats), robbery, assault (including threats), kidnapping, intimidation, illegal abortion, extortion, cruelty towards child or wife, hit-and-run driving with bodily injury, and miscellaneous crimes against persons (as opposed to crimes against property).

For statistics on family violence that comes to police attention and for statistics on arrests for family violence, the source used in this report (Uniform Crime Report) is the GPD Arrest Record. Among the various details available on offenders and arrestees are their age, race, gender, and offenses charged.

In choosing a particular offender to characterize an incident, the choice was guided by the victim's relationship to the offender. For example, in a single incident in which a woman was sexually assaulted by her husband and a stranger, the incident would be treated as a spouse-on-spouse assault. Offender statistics for such an incident (such as age, race, and gender) therefore pertained solely to the characteristics of the husband. Characteristics of the stranger is not tabulated. When it is necessary to choose a single victim to characterize an incident, the victim-offender relationship hierarchy is used. Again, the chosen victim is the one highest in the hierarchy. In choosing a particular offense to characterize an incident, the choice is by the offense's position in a hierarchy of offense seriousness. the offense highest in the hierarchy is selected to characterize the incident.

Driving Under the Influence

Definition

Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

Agencies include in this classification:

- Operating a motor vehicle while under the influence (DWI).
- Operating an engine, train, streetcar, boat, etc., while under the influence

Unlawful Condition of the Driver

The driver whose physical and mental condition is impaired by alcohol is a major contributor of the crash traffic accident problem. Despite the recent reductions in alcohol-related fatalities, alcohol continues to be major cause of crash traffic related deaths.

Alcohol Influence. The driver who has had too many alcoholic beverages is physiologically affected in such a way as to display the following characteristics:

- Impaired judgment
- Relaxed inhibitions and restraints
- Slow reflexes
- Decreased ability to distinguish small differences in light and sound
- Loss of muscular coordination and timing
- Decreased ability to give attention required

Difficulty of Enforcement

Enforcement agencies recognize that the drinking driver is a significant cause of crash traffic accidents. A fundamental reason for difficulties in enforcement is probably the wide social acceptance of alcohol beverages. Because most people use alcohol beverages socially, they tend to feel they cannot be severe with drivers who get into trouble because they drive after drinking. Drinking is a form of celebration enjoyed by many persons -a dangerous practice when coupled with driving a car.

Section VI

Law Enforcement Personnel

Law Enforcement Personnel

Guam Police Department

The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specially for law enforcement representatives.

Because of the differing service requirements and functions, care should be taken when using the data presented in this section to draw comparisons between and among the staffing levels of Guam Police Department. What follows is not intended as recommended or preferred officer strength; this data should be viewed merely as guides.

This section of the UCR, 2014 Crime in Guam, presents data as the number and rate of sworn law enforcement officers with the Guam Police Department. The data are broken down by precincts and population. Law enforcement employee rates are expressed as the number of employees per 1,000 inhabitants.

The demographic traits and characteristics of a jurisdiction affect its requirements of law enforcement service. For instance, a business community like the villages of Tamuning, Tumon, and Harmon require more law enforcement presence than a community of the same size that has no urban center nearby. A community with legal gambling (game rooms) may have different law enforcement needs than one near a military base. The needs of a community, like Deeded village, with highly mobile or seasonal population may be very different from village like Mangilao, whose population is relatively stable.

Similarly, the functions of the Guam Police Department are significantly diverse. They patrol local streets and busy highways, they protect citizens in Guam's smallest villages and largest communities. Patrol officers in one area may enforce traffic laws on highways, in another area, they may be responsible for investigating violent crimes. These and other duties have an impact on police staffing levels.

SECTION VII APPENDICES

Appendix I Calculation of Rates

The Uniform Crime Reporting Program provides data for police executives to measure local problems function, the local data must be converted into terms of rates and percentages. Simple formulas are provided to assist in these computations.

Offense and Arrest Rates

One of the most meaningful crime statistics is the crime rate. Crime rates are indicators of reported crime activity per 1,000 population. They are more refined indicators for comparative purposes than are volume figures. An offense rate, number of offenses per 1,000 inhabitants, is derived by first dividing a jurisdiction's population by 1,000 and then dividing the number of offenses by the resulting figure.

Example:

- a. Population for Guam, 161,001
- b. Number of known burglaries for 2014, 1,574
- Divide 161,001 by 1,000 = 161 (rounded)
- Divide 1,574 by 161 = 9.8
- The burglary rate is 9.8 per 1,000 inhabitants.

The number 161 can now be divided into the totals of any offense class to produce a crime rate for that offense.

Clearance Rates

The percentage of *crimes cleared by arrest* is obtained first by dividing the number of offenses cleared by the number known and then multiplying the resulting figure by 100.

Example:

- a. Number of clearances in burglary, 106
- b. Number of total burglaries, 1,574
- c. Divide 106 by 1,574 = 0.067
- d. Multiply .067 by 100 = 6.7
- The clearance rate for burglary is 6.7

Crime Trends

A crime trend represents the percentage change in crime based on data reported in a prior equivalent period.

Example:

- a. Murders for January through December, last year (2013), 8
- b. Murders for January through December, this year, 7

Subtract:

$$\begin{array}{r} 7 \\ -8 \\ \hline -1 \end{array}$$

Notice that “-1” is an decrease over the past year.
Divide -1 by 8 = -0.125

Multiply -0.125 by 100 = -12.5 percent
The volume trend in murder is a decrease of 12.5 percent for this year as compared to last year.

Police Employee Rates

Police employee rates are expressed as the number of employees per 1,000 inhabitants. To compute such a rate, divide the jurisdiction’s population by 1,000 and divide the number of employees in the law enforcement agency by this number.

Example:

GPD Full-Time employees

Police Officers and Civilian Employees

- a. The jurisdiction’s population, 161,001
 - b. The agency’s number of employees (police officers and civilians): 300
- Divide 161,001 by 1,000=161 (rounded)
Divide 300 by 161 = 1.9

The employee rate is 1.9 employees/officers per 1,000 inhabitants.

Police Officers only

- a. The jurisdiction’s population, 161,001
 - b. The agency’s number of employees (police officers and civilians): 63
- Divide 161,001 by 1,000=161 (rounded)
Divide 63 by 161 = 0.4

The employee rate is 0.4 employees/officers per 1,000 inhabitants.

Appendix - II:

UCR PART I and PART II OFFENSE DEFINITIONS

Violent Crimes and Property Crimes

1 Criminal Homicide

1a Criminal Homicide - Murder and Non-Negligent Manslaughter

Definition: The willful (non-negligent) killing of one human being by another.

Note: As a general rule, any death caused by injuries received in a fight, argument, quarrel, assault or commission of a crime is classified as Murder and Non-Negligent Manslaughter (1a).

Agencies must not classify the following as Criminal Homicide—Murder and Non-Negligent manslaughter (1a).

- Suicides
- Accidental Deaths
- Attempts to Murder
- Fetal Deaths
- Assaults to Murder
- Traffic Fatalities

Attempts and Assaults to murder must be classified as Aggravated Assaults

Justifiable Homicide

Definition: The killing of a felon by a peace officer in the line of duty or the killing of a felon, during the commission of a felony, by a private citizen.

Note: Justifiable homicide, by definition, occurs in conjunction with other offenses. Therefore, the crime being committed when the justifiable homicide took place must be reported as a separate offense. Reporting agencies should take care to ensure that they do not classify a killing as justifiable or excusable solely on the claims of self-defense or on the action of a coroner, prosecutor, grand jury, or court.

1b Criminal Homicide - Manslaughter by Negligent

Definition: The killing of another person through gross negligence.

2 Forcible Rape

Definition: Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

2a Forcible Rape - Rape By Force

Definition: This definition including either gender of victim or offender

Sexual penetration means the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, or by a sex-related object. This definition also includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (including due to the influence of drugs or alcohol) or because of age. Physical resistance is not required on the part of demonstrate lack of consent.

2a Forcible Rape - Attempts to Commit Forcible Rape

Definition: Assaults or attempts to forcibly rape are classified as Attempts to Commit Forcible Rape (2b).

3 Robbery

Definition: The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

3a Robbery - Firearm

Definition: Includes robberies in which any firearm is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear.

3b Robbery - Knife or Cutting Instrument

Definition: Includes robberies in which a knife, broken bottle, razor, ice pick, or other cutting or stabbing instrument is employed as a weapon or as a means of force to threaten the victim or put the victim in fear.

3c Robbery - Other Dangerous Weapon

Definition: Includes robberies in which a club, acid, explosive, brass knuckles, Mace, pepper spray, or other dangerous weapon is employed or its use is threatened.

3a Robbery - Strong-arm-Hands, Fists, Feet, etc.

Definition: Includes muggings and similar offenses in which only personal weapons such as hands, arms, feet, fists, and teeth are employed or their use is threatened to deprive the victim of possessions.

4 Aggravated Assault

Definition: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

4a Aggravated Assault-Firearm

Definition: Includes all assaults in which a firearm of any type is used or is threatened to be used. Assaults with revolvers, automatic pistols, shotguns, zip guns, rifles, etc. are included in this category.

4b Aggravated Assault-Knife or Cutting Instrument

Definition: Includes assaults wherein weapons such as knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, and ice picks are used as cutting or stabbing objects or their use is threatened.

4c Aggravated Assault-Other Dangerous Weapon

Definition: Includes assaults resulting from the use or threatened use of any object as a weapon in which serious injury does or could result. The weapons in this category include, but are not limited to, Mace, pepper spray, clubs, bricks, jack handles, tire irons, bottles, or other blunt instruments used to club or beat victims. Attacks by explosives, acids, lye, poison, scalding, burnings, etc. are also included in this category.

4d Aggravated Assault-Hands, Fists, Feet, Etc.-Aggravated Injury

Definition: Includes only the attacks using personal weapons such as hands, arms, feet, fists, and teeth, that result in serious or aggravated injury.

4e Other Assaults-Simple, Not Aggravated

Definition: Includes all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which the victim did not sustain serious or aggravated injuries.

Simple assault is not a Part I offense - it is a Part II offense but is collected under 4e as a quality control matter and for the purpose of looking at total assault violence.

5 Burglary

Definition: The unlawful entry of a **structure** to commit a felony or a theft.

5a Burglary-Forcible Entry

Definition: All offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony. This definition applies when a thief gains entry by using tools; breaking windows; forcing windows, doors, transoms, or ventilators; cutting screens, walls or roofs; and where known, using master keys, picks, unauthorized keys, celluloid, a mechanical contrivance of any kind (e.g., a passkey or skeleton key), or other devices that leave no outward mark but are used to force a lock.

5b Burglary-Unlawful Entry-No Force

Definition: Situation is achieved by use of an unlocked door or window. The element of trespass to the structure is essential in this category, which includes thefts from open garages, open warehouses, open or unlocked dwellings, and open or unlocked common basement areas in apartment houses where entry is achieved by other than the tenant who has lawful access.

5c Burglary-Attempted Forcible Entry

Definition: Includes those situations where a forcible entry burglary is attempted but not completed. Once the thief is inside a locked structure, the offense becomes a Burglary-Forcible Entry (5a). Agencies must classify attempts to enter an unlocked structure as well as actual trespass to an unlocked structure as Burglary-Unlawful Entry-No Force (5b). Only situations in which a thief has attempted to break into a locked structure are classified as Burglary-Attempted Forcible Entry (5c).

6 Larceny Theft

Definition: The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

6xa Pocket-Picking

Definition: The theft of articles from a person by stealth where the victim usually does not become immediately aware of the theft.

6xb Purse-Snatching

Definition: The grabbing or snatching of a purse, handbag, etc., from the custody of an individual

6xc Shoplifting

Definition: The theft by a person (other than an employee) of goods or merchandise exposed for sale.

6xd Theft From Motor Vehicles (Except Theft of Motor Vehicle Parts and Accessories)

Definition: The theft of articles from a motor vehicle, whether locked or unlocked.

6xe Theft of Motor Vehicle Parts and Accessories

Definition: The theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner that would make the part an attachment to the vehicle or necessary for the operation of the vehicle.

6xf Theft of Bicycles

Definition: The theft by a person (other than an employee) of goods or merchandise exposed for sale.

6xg Theft From Buildings

Definition: A theft from within a building that is open to the general public and where the offender has legal access.

6xh From Coin-operated Device or Machine

Definition: A theft from a device or machine which is operated or activated by the use of a coin.

6xi All Other Larceny-Theft Not Specially Classified

Definition: All thefts which do not fit the definition of the specific categories of larceny listed above or attempted theft.

7 Motor Vehicle Theft

Definition: The theft or attempted theft of a motor vehicle.

7a Motor Vehicle Theft: Autos

Definition: Includes the thefts of all sedans, station wagons, coupes, convertibles, sport utility vehicles, minivans, and other similar motor vehicles that serve the primary purpose of transporting people from one place to another. Automobiles used as taxis are also included. Some states allow a station wagon to be registered as a truck; however, licensing is not a determining factor. The UCR Program stipulates that a station wagon must be classified as an automobile.

7b Motor Vehicle Theft: Trucks and Buses

Definition: Includes the theft of those vehicles specifically designed (but not necessarily used) to commercially transport people and cargo. Pickup trucks and cargo vans, regardless of their use, are included in this category. The UCR Program considers a self-propelled motor home to be a truck

7c Motor Vehicle Theft: Other Vehicles

Definition: Includes all other motor vehicles that meet the UCR definition such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts, all-terrain vehicles, and motorized wheelchairs. Obviously, all situations cannot be covered, so the classifier's decision must be based on UCR standards and the results of law enforcement investigation.

8 Arson

Definition: Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

8a-g Arson-Structural

Definition: In classifying the object of an arson as structural, reporting agencies must use the guidelines for defining structures set forth in the discussion of burglary in this handbook (page 28). A house trailer or mobile unit that is permanently fixed as an office, residence, or storehouse must be considered structural property.

8h-i Motor Vehicle Theft: Other Vehicles

Definition: Motor vehicles by UCR definition must be self-propelled and run on land surface and not on rails; for example, sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles and snowmobiles are classified as motor vehicles.

8j Arson-Other

Definition: Subcategory encompasses arson of all property not classified as structural or mobile. Willful or malicious burnings of property such as crops, timber fences, signs, and merchandise stored outside structures are included in this category.

UCR PART II OFFENSE DEFINITIONS

9 Other Assaults, Simple

Definition: Unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack (e.g., intimidation).

10 Forgery and Counterfeiting

Definition: The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying or possession of an altered, copied or imitated thing with the intent to deceive or defraud.

11 Fraud

Definition: The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right. Fraudulent conversion and obtaining of money or property by false pretenses.

12 Embezzlement

Definition: The unlawful misappropriation or misapplication by an offender to his/ her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

13 Stolen Property: Buying, Receiving, Possessing

Definition: Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement fraud, larceny, robbery, etc.

14 Vandalism

Definition: To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

15 Weapons: Carrying, Possessing, Etc.

Definition: The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons.

16 Prostitution and Commercialized Vice

Definition: The unlawful promotion of or participation in sexual activities for profit. To solicit customers or transport persons for prostitution purposes; to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed; or to otherwise assist or promote prostitution.

17 Sex Offenses (Except Forcible Rape and Prostitution)

Definition: Includes offenses against chastity, common decency, morals, and the like.

18 Drug Abuse Violations

Definition: The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances and the equipment or devices utilized in their preparation and/or use. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

19 Gambling

Definition: To unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance for money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage.

To unlawfully stake money or something else of value on the happening of an uncertain event or on the ascertainment of a fact in dispute.

To unlawfully operate, promote, or assist in the operation of a game of chance, lottery, or other gambling activity.

To unlawfully manufacture, sell, buy, possess, or transport equipment, devices, and/or goods used for gambling purposes.

To unlawfully alter, meddle in, or otherwise interfere with a sporting contest or event for the purpose of gaining a gambling advantage

20 Offenses Against the Family and Children

Definition: Unlawful nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that area not classifiable as other offenses, such as Assault or Sex Offenses.

21 Driving Under the Influence

Definition: Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

22 Liquor Laws

Definition: The violation of state or local laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages, not including driving under the influence and drunkenness.

23 Drunkenness

Definition: To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. Exclude driving under the influence.

24 Disorderly Conduct

Definition: Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

25 Vagrancy

Definition: The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support.

26 All Other Offenses

Definition: All violations of state or local laws not specifically identified as Part I or Part II offenses, except traffic violations.

27 Suspicion

Definition: Arrested for no specific offense and released without formal charges being placed.

Although suspicion is not an offense, it is the grounds for many arrests in those jurisdictions where the law permits. After law enforcement officers examine the situation, they will either formally charge the prisoner or release him/her. Reporting agencies must classify the offense for which those individuals were formally charged as one of the Part I or Part II Offenses. The suspicion classification is limited to suspicion arrests where persons arrested are released by the police.

28 Curfew and Loitering Laws (Persons under age 18)

Definition: Violations by juveniles of local curfew or loitering ordinances.

29 Runaways (Persons under age 18)

Definition: Limited to juveniles taken into protective custody under the provisions of local statutes.

Although running away does not constitute a criminal offense, agencies should report each handling of a runaway. Handling of runaways from one jurisdiction by another jurisdiction should be counted by the home jurisdiction.

GLOSSARY

A goal of the UCR Program, as developed by law enforcement, was to provide a “common denominator” language that transcends the varying local and state laws. State statutes and local ordinances must be very specific in defining crimes so that persons facing prosecution will know the exact charges being placed against them. On the other hand, the definitions used in UCR are generic in order not to exclude varying state and federal statutes relating to the same type of crime. These definitions are not meant to be used for charging persons with crimes; to the contrary, they are meant to be categorical definitions for reporting crimes committed throughout the United States. Accordingly, the offense definitions in the UCR Program are based on the common-law definitions found in the Black’s Law Dictionary, the Program’s 1932 Standard Classification of Offenses, and the National Crime Information Center’s Uniform Offense Classifications.

Adult—A person 18 years of age or older.

Aggravated Assault—An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

All Other Offenses—All violations of state or local laws not specifically identified as Part I or Part II offenses, except traffic violations.

Arson—Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Assault—An unlawful attack by one person upon another.

Autos—Sedans, station wagons, coupes, convertibles, sport utility vehicles, minivans, and other similar motor vehicles that serve the primary purpose of transporting people from one place to another.

Burglary—The unlawful entry of a structure to commit a felony or a theft.

Carnal Knowledge—The act of a man having sexual bodily connections with a woman; sexual intercourse. The slightest penetration of the sexual organ of the female (vagina) by the sexual organ of the male (penis).

Classifying—Determining the proper crime categories in which to report offenses in UCR. The offense’s classification is based on the facts of an agency’s investigation of crimes.

Cleared by Arrest—An offense is considered cleared when at least one person involved in the commission of the offense has been (1) arrested, (2) charged, and (3) turned over to the court for prosecution.

Cleared by Exceptional Means—A clearance in which some element beyond law enforcement control prevents filing of formal charges against the offender. Agencies can clear an offense exceptionally if they can answer all of the following in the affirmative. (1) Has the investigation definitely established the identity of the offender? (2) Is there enough information to support an arrest, charge, and turning over to the court for prosecution? (3) Is the exact location of the offender known so that the subject could be taken into custody now? (4) Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender (for example, suicide, deathbed confession, double murder, etc.)?

Constructive Possession—The condition in which a person does not have physical custody or possession, but is in a position to exercise dominion or control over a thing.

Conversion—An unauthorized assumption and exercise of the right of ownership over goods or personal chattels belonging to another to the alteration of their condition or the exclusion of the owner's rights.

Crime Against Property—Offenses in this category include robbery, burglary, larceny-theft, motor vehicle theft, and arson. One offense is counted for each distinct operation, except in the case of motor vehicle theft for which one offense is counted for each stolen vehicle.

Crime Against Persons—Offenses in this category include criminal homicide, rape, aggravated assault, human trafficking-commercial sex acts, and human trafficking-involuntary servitude. One offense is scored for each victim.

Criminal Homicide—The willful killing of one human being by another.

Curfew and Loitering (Persons under age 18)—Violations by juveniles of local curfew or loitering ordinances.

Disorderly Conduct—Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

Driving Under the Influence—Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

Drug Abuse Violations—The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances and the equipment or devices utilized in their preparation and/or use. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession,

transportation, or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

Drunkenness—To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. Exclude driving under the influence.

Embezzlement—The unlawful misappropriation or misapplication by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

Forcible Rape—The carnal knowledge of a female forcibly and against her will.

Forgery and Counterfeiting—The altering, copying, or imitating of something without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

Fraud—The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right. Fraudulent conversion and obtaining of money or property by false pretenses.

Gambling—To unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance for money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage.

Hate Crime—A criminal offense committed against a person, property, or society which is motivated, in whole or in part, by the offender's bias against a race, religion, disability, sexual orientation, or ethnicity/national origin; also known as a bias crime.

Hierarchy Rule—When more than one Part I offense is classified, the law enforcement agency must locate the offense that is highest on the hierarchy list and score that offense and not the other offense in the multiple-offense situation. There is a significance to the order in which the Part I offenses are presented, with murder being the highest in the hierarchy and arson being the lowest. The offenses of justifiable homicide, motor vehicle theft, and arson are exceptions to the Hierarchy Rule.

Forcible Rape—The carnal knowledge of a female forcibly and against her will. This definition is now only used for historical trend purposes.

Hotel Rule—Burglaries of hotels, motels, lodging houses, and other places where lodging of transients is the main purpose are scored under provisions of the Hotel Rule. This principle of

scoring dictates that if a number of dwelling units under a single manager are burglarized and the offenses are most likely to be reported to the police by the manager rather than the individual tenants, the burglary must be scored as one offense.

Human Trafficking, Commercial Sex Acts—Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

Human Trafficking, Involuntary Servitude— The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

Justifiable Homicide—The killing of a felon by a peace officer in the line of duty or the killing of a felon, during the commission of a felony, by a private citizen.

Juvenile—A person under 18 years of age.

Larceny-theft—The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

Liquor Laws—The violation of state or local laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages, not including driving under the influence and drunkenness.

Manslaughter by Negligence—The killing of another person through gross negligence.

Motor Vehicle—A self-propelled vehicle that runs on land surface and not on rails.

Motor Vehicle Theft—The theft or attempted theft of a motor vehicle.

Murder and Nonnegligent Manslaughter—The willful (Nonnegligent) killing of one human being by another.

Offenses Against the Family and Children—Unlawful nonviolent acts by a family member (or legal guardian) which threaten the physical, mental, or economic well-being or morals of another family member and which are not classifiable as other offenses, such as Assault or Sex Offenses.

Other Vehicles—All other vehicles that meet the UCR definition for motor vehicles such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts, and all-terrain vehicles.

Part I Offenses—The first of two main groupings of UCR crime classifications consisting of eight offenses (criminal homicide, forcible rape, aggravated assault, robbery, burglary, larceny-theft, motor vehicle theft, and arson).

Part II Offenses—The second of two main UCR groupings of crime classifications not already designated in Part I. Agencies are limited to reporting arrest information only for Part I offenses with the exception of simple assault.

Prostitution and Commercialized Vice—The unlawful promotion of or participation in sexual activities for profit.

Rape—Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Robbery—The taking or attempted taking of anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Runaways (Persons under age 18)—Limited to juveniles taken into protective custody under the provisions of local statutes. Runaways is no longer required by the FBI UCR Program.

Scoring—Counting the number of offenses after they have been classified and entering the total count on the appropriate reporting form. The appropriate scoring of Part I crimes is directly related to the two types of crimes involved: crimes against the person and crimes against property.

Separation of Time and Place Rule—A standard UCR scoring practice that stipulates if there is a separation of time and place between the commission of several crimes, the reporting agency must handle each crime as a separate incident and must classify and score each offense individually.

Sex Offenses—Offenses against chastity, common decency, morals, and the like.

Simple Assault—All assaults and attempted assaults which are not of an aggravated nature and do not result in serious injury to the victim.

Stolen Property: Buying, Receiving, Possessing—Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

Structure—Includes, but is not limited to, apartments, barns, cabins, churches, condominiums, dwelling houses, factories, garages, house trailers or houseboats (used as a permanent dwelling), mills, offices, other buildings, outbuildings, public buildings, railroad cars, rooms, schools, stables, vessels (ships), and warehouses.

Suspicion—Arrested for no specific offense and released without formal charges being placed.

Trucks and Buses—Vehicles specifically designed (but not necessarily used) to commercially transport people and cargo.

Unfounded—False or baseless complaints.

Vagrancy—The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support.

Vandalism—To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

Weapons: Carrying, Possessing, Etc.—The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons.
