Uniform Crime Report

Guam Police Department
Planning, Research and Development

Forward, *Crime in Guam, 2017*

The **Uniform Crime Reporting (UCR) Program** was established by law enforcement in order to meet the need for crime statistics used in operational planning and policymaking. The purpose of the UCR Program is to collect accurate and pertinent crime data for the daily use of law enforcement. Narratives, graphics, and tabular portions highlight trends identified in the reported figures for the year.

In addition to our law enforcement agency, the vast compilation of data serves a large and varied audience. The Program's data users who formulate policies, make strategic and operational decision, and conduct criminological research and analysis include members of the criminal justice community, governmental agencies, legislators, researchers, students, the media, corporate managers, and the general public. The Program's data are essential for those seeking to understand the nature and extent of *Crime in Guam*.

The **Uniform Crime Reporting (UCR) Program** serves as a long standing example of how the island can benefit when information flows freely among local police commands. The cooperative efforts to provide their jurisdictions' crime reports enable Guam Police Department (GPD) to present island view on crime.

In 2000, GPD took an advance step in developing a Records Management System that will provide the information needed to generate UCR data. The Guam Police Department's goal is to provide a reliable set of crime statistics for use in law enforcement administration, operations, and management.

In addition to meeting national UCR Program standards, definitions, and information required, the Guam Police Department also provides statistical data beyond the national collection standards. The collection of additional data for submission in the national program may provide the Guam Police Department with funds to underwrite projects designed to reduce crime and improve public safety. To support local legislation, GPD also provides local lawmakers a trustworthy set of statistics which empower them to design a criminal justice system that is capable of responding to current crime trends.

The resulting valuable data source is used in a multitude of applications. Information sharing has become a priority as law enforcement works together to enhance criminal justice information network, to investigate crimes and to prevent terrorist acts. The UCR Program continues to be a resource for crime in Guam and it is our hope that the *2017 Crime in Guam* issue will help law enforcement leaders make the best possible decisions to secure safety and prosperity in our communities.

Joseph I. Cruz
Chief of Police

Crime Factors

Caution Against Ranking/Categorizing

Each year when *Crime in Guam* is published, Guam Police Department places caution in the ranking or categorizing levels of crime specific to the villages in the jurisdiction. The use of reported figures to determine how villages "rank" amongst each other, without the consideration of other demographics or variables beyond the scope of this publication, provides a risk of error or omission. Consequently, "ranking" may lead to incomplete analysis that often creates misleading perceptions that can only adversely affect village residents and businesses.

Characteristics of a Jurisdiction

To assess criminality and law enforcement's response from jurisdiction to jurisdiction, one must consider many variables, some of which, while having significant impact on crime, are not readily measurable or applicable pervasively among all locales. Geographic and demographic factors specific to each jurisdiction must be considered and applied if one is going to make an accurate and complete assessment of crime in that jurisdiction. Several sources of information are available that may assist the responsible researcher in exploring the many variables that affect crime in a particular locale. The U.S. Census Bureau data, for example, can be used to better understand the makeup of a locale's population. The transience of the population, its racial and ethnic makeup, its composition by age and gender, educational levels, and prevalent family structure are all key factors in assessing and comprehending the crime issue. The local chamber of commerce, planning offices, or similar entities provide information regarding the economic and cultural makeup of communities/villages here in Guam. Understanding a jurisdiction's industrial/economic base; its dependence upon neighboring jurisdictions; its transportation system; its economic dependence on nonresidents (such as tourists and off island business visitors); its proximity to military installations, correctional facilities, etc., all contribute to accurately gauging and interpreting the crime known by law enforcement.

The strength (personnel and other resources) and the aggressiveness of a jurisdiction's law enforcement agency are also key factors in understanding the nature and extent of crime occurring in that area. Although the information pertaining to the number of sworn law enforcement employees can be found in this publication. It cannot be used alone as an assessment of the emphasis that a community places on enforcing the law. For example, one village may report more crime than a comparable one, not because there is more crime, but rather because its law enforcement agency through proactive efforts identifies more offenses. Attitudes of the citizens toward crime and their crime reporting practices, especially concerning minor offenses, also have an impact of the volume of crimes known to police.

Some factors that are known to affect the volume and type of crime occurring from place to place are:

- Population density and degree of urbanization.
- Variations in composition of the population, particularly youth concentration.
- Stability of population with respect to resident's mobility, commuting patterns, and transient factors.
- Modes of transportation and highway system.
- Economic conditions, including median income, poverty level, and job availability.
- Cultural factors and educational, recreational, and religious characteristics.
- Family conditions with respect to divorce and family cohesiveness.
- Climate.
- Effective strength of law enforcement .
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probation).
- Citizens' attitudes toward crime.
- Crime reporting practices of citizenry.

SECTION I-

Summary of the Uniform Crime Report

Summary of the Uniform Crime Reporting (UCR) Program

Eight main offense classifications, known as Part I Crimes, were chosen to measure fluctuations in the overall volume and rate of crime in the nation, which includes Guam. These eight offense classifications include the violent crimes of; murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, and the property crimes of: burglary, larceny- theft, motor vehicle theft, and arson. These offenses are classified according to Hierarchy Rule, with the exception of justifiable homicides, motor vehicle theft, and arson. In the UCR Program, justifiable homicide is defined as and limited to;

- 1). The killing of a felon by a peace officer in the line of duty.
- 2). The killing of a felon, during the commission of a felony, by a private citizen.

Hierarchy Rule

The experience of law enforcement agencies in handling UCR data shows that, for the most part, offenses of law occur singly as opposed to many being committed simultaneously. In these single-offense situations, law enforcement agencies must decide whether the crime is a Part I Offense. If so, the agency must score the crime accordingly. However, several offenses are committed at the same time and place by a person or a group of persons, a different approach must be used in classifying and scoring. The law enforcement matter in which many crimes are committed simultaneously is called a multiple offense situation. As a general rule, a multiple offense situation requires classifying each of the offenses occurring and determining which of them are Part I crimes. The Hierarchy rule requires that when more than one Part I is classified, the law enforcement agency must locate the offense that is highest on the hierarchy list and score that offense involved and not the other offense(s) in the multiple-offense situation.

The Hierarchy Rule applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts. The offenses of justifiable homicide, motor vehicle theft and arson are exceptions to the Hierarchy Rule.

Separation of Time and Place Rule

Occasionally, an individual or a group will perpetrate a number of offenses over a short period of time. If there is a separation of time and place between the commission of several crimes, the reporting agency must handle each crime as a separate incident and must classify and score each offense individually.

"Same time and place" means that the time interval between the offenses and the distance between locations where they occurred are insignificant. Normally, the offenses must have occurred during an unbroken time duration and at the same or adjoining locations. However, incidents can also be comprised of offenses which by their nature, involve continuing activity to constitute a single criminal transaction.

"Because it is not possible to provide instructions that will cover all of the situations that might occur, in some cases the reporting agency will have to use its best judgment in determining how many incidents were involved".

Summary of the Uniform Crime Reporting (UCR) Program

The reporting of offenses known is limited to the crime classifications mentioned because they are the most serious and commonly reported crimes occurring in all areas of the United States. Together they serve as a gauge of the level and scope of crimes occurring across the United States and Guam.

For each incident known to police within these categories, law enforcement collects administrative, offense, victim, property, offender, and arrestee information.

The collection of crime reports is based on local, state, national and public need to understand the nature of crime within law enforcement jurisdictions. Complete crime statistics assist people concerned with administrative, operational, and policy developments affected by crime.

Specifically, identified needs include:

1. The number and kinds of criminal acts that occur (offenses known).
2. The number of such crimes or offenses cleared.
3. The personal characteristics concerning persons arrested.
4. Law enforcement disposition of juveniles.
5. Law enforcement employee information.
6. The characteristics of known offenders.

Law enforcement officials, researchers, and policy makers equipped with this information can present a clear picture of crime situation within jurisdictions and gain an understanding of steps needed to effectively address crime.

Classifying and scoring offenses are two core functions for reporting crime in the UCR Program. Classifying is determining the proper crime categories in which to report offenses in the UCR. The offense's classification is based on the facts of an agency's investigation of crimes.

Scoring is counting the number of offenses after they have been classified. The appropriate scoring of Part I crimes is directly related to the two types of crimes involved, crimes against the person and crimes against the property.

Law Enforcement Agency (LEA) participants classify and score offenses from records of calls for service, complaints, and/or investigations. Since these crime statistics are intended to assist law enforcement in identifying the crime problem, participants record offense counts, not the findings of a court, coroner, or jury or the decision of a prosecutor.

SECTION II - Offenses Reported

Violent Crimes

Definition

Violent Crime is composed of four offenses; murder and nonegligent manslaughter, forcible rape, robbery, and aggravated assault. According to the Uniform Crime Reporting (UCR) Program's definition, violent crimes involve force or threat of force.

Volumes, Trends, and Rates

In 2017, there were 369 violent crimes reported and known to police. Of these, aggravated assaults comprised 62.6 percent, robbery, 28.2 percent, rape 8.7 percent, and murder 1.0 percent.

The UCR Program examines data in increments of 2 and 5-year to formulate trend information. Violent crimes in 2017 increased 8.2 percent compared to 2016. The occurrence of violent crime reported and known to police in 2017 was estimated at a rate of 2.3 percent violent offenses per 1,000 inhabitants. The volume of individual offenses within the violent crime category showed that in a year-to-year comparison of 2016 and 2017 data, murder victims increased 33.3 percent. Rape decreased 69.0 percent, robbery increased 31.6 percent and aggravated assault increased 46.8 percent

Murder

Definition

The Uniform Crime Reporting (UCR) Program defines murder and nonnegligent manslaughter as the willful (nonnegligent) killing of one human being by another.

The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. The UCR Program does not include the following situations in this offense classification: deaths caused by negligence, suicide, or accident; justifiable homicides and attempts to murder or assaults to murder, are classified as aggravated assaults.

Criminal Homicide--- Murder and Nonnegligent Manslaughter

Definition: The willful (nonnegligent) killing of one human being by another.

Any death caused by injuries received in a fight, argument, quarrel, assault or commission of a crime is classified as Murder and Nonnegligent Manslaughter.

Justifiable Homicide -- Certain willful killings must be classified as justifiable or excusable.

- The killing of a felon by a peace officer in the line of duty.
- The killing of a felon, during the commission of a felony, by a private citizen.

Criminal Homicide--- Manslaughter by Negligence

The killing of another person through gross negligence.

Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included in the category Manslaughter by Negligence.

Rape

Reporting agencies classify rape or attempted rape regardless of the age of the victim. One offense for each person raped or upon whom an assault to rape or attempt to rape is counted.

(GCA Crime Code Description: Criminal Sexual Conduct: 3rd. Degree (Penetration) (Felony 2nd. Degree)

Rape, Completed

Definition: Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. This definition includes either gender of victim or offender. Sexual penetration means the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, or by sex-related object. This definition includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (including due to influence of drugs or alcohol) or because of age. Physical resistance is not required on the part of the victim to demonstrate lack of consent.

Rape---Attempts to Commit Rape

Assaults or attempts to rape are classified as Attempts to Commit Rape and are counted in the "Rape" classification for reporting purposes.

Definition: The carnal knowledge of a female forcibly and against her will. "Carnal Knowledge" is defined as a sexual intercourse, or the slightest penetration of a female sex organ by a male sex organ. Against her will implies the victim's lack of consent, including cases where a victim is incapable of giving consent due to the victim's temporary or permanent mental or physical incapacity.

Robbery

Definition

The Uniform Crime Reporting (UCR) Program defines robbery as the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Robbery is a vicious type of theft in that it is committed in the presence of the victim. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or is put in fear that force will be used. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force.

Robbery---Firearm

Robbery---Firearm includes robberies and attempts in which any firearm is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear.

Robbery---Knife or cutting Instrument

Robbery---Knife or Cutting Instrument includes robberies and attempts in which a knife, broken bottle, broken bottle, razor, ice pick, or other cutting or stabbing instrument is employed as a weapon or as a means of force to threaten the victim in fear.

Robbery---Other Dangerous Weapon

Robbery---Other Weapon includes robberies in which a club, acid, explosive, brass knuckles, Mace pepper spray, stun guns, Tasers, or other dangerous weapon is employed or its use is threatened. Attempts are included in this category.

Robbery--Strong-arm, Hands, Fists, Feet, etc.

This robbery category includes muggings, and similar offenses where no weapon is used, but strong-arm tactics (limited to the use of personal weapons such as hands, arms, feet, fists, teeth, etc.) are employed or their use is threatened to deprive the victim of possessions.

Aggravated Assault

Definition

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

The UCR Program considers a weapon to be a commonly known weapon (a gun, knife, club, etc.) or any other item which, although not usually thought of as a weapon, becomes one in the commission of a crime. The categories of Aggravated Assault (4a - 4d) includes assaults or attempts to kill or murder, poisoning, assault with a dangerous or deadly weapon, maiming, mayhem, assault with explosives, and assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.). All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as Aggravated Assault. It is not necessary that injury result from an aggravated assault with a gun, knife, or other weapon that could cause serious personal injury is used.

It is a practice of local jurisdiction to charge assailants in assault cases with assault and battery, disorderly conduct, domestic violence, or simple assault even though knife, gun, or other weapon was used in the incident. This type of offense is reported to the UCR Program as Aggravated Assault.

Property Crimes

Definition

In the Uniform Crime Reporting (UCR) Program, property crime includes the offenses of burglary, larceny-theft, motor vehicle theft, and arson. The object of theft-type offenses is the taking of money or property, but there is no force or threat of force against the victims. The property crime category includes arson because the offense involves the destruction of property; however, arson victims may be subjected to force. Because of limited participation and varying collection procedures, only limited data are available for arson. Arson statistics are included in the trend, clearance, and arrest table throughout the UCR Report. The arson section in this report provide information on that offense.

Burglary

Definition

Burglary is defined in the Uniform Crime Reporting (UCR) Program as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as a burglary. Burglary in the UCR program is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry. The UCR Program classifies offenses locally known as burglary (any degree) unlawful entry with intent to commit a larceny, housebreaking, safe cracking, and all attempts at these offenses as burglary. The UCR's definition of a structure includes, but is not limited, to the following:

- Apartment
- Barn
- Cabin
- Church
- Condominium
- Dwelling House
- Factory
- Garage
- Other Building
- Outbuilding
- Room
- School
- Storage Facility
- Vessel (ship)
- Warehouse
- Public Building
- Office
- House Trailer or House Boat

Additionally, any house trailer or other mobile unit is permanently fixed as an office, residence, or storehouse is considered a structure. Tents, tent trailers, motor homes, house trailers, or other mobile units being used for recreational purposes are not considered structures. The UCR Program does not consider a telephone booth a structure.

Thefts from automobiles, whether locked or not, shoplifting from commercial establishments, and thefts from telephone booths, coin-operated machines are all classified as larceny-theft offenses.

Note: It is important to remember that offenses are classified according to UCR definitions and not according to state or local codes. Some states might for instance, categorize a shoplifting or a theft from motor vehicle as burglary. For UCR purposes, such instances are reported as larceny-thefts.

Hotel Rule

Burglaries of hotels, motels, lodging houses, or other places where temporary lodging is the main purpose can present reporting problems to law enforcement . If a number of units under a single manager are burglarized and the offenses are most likely to be reported to the police by the manager rather than the individual tenants, the burglary is reported as a single offense. If the individual living areas in a building are rented or leased to the occupants for a period of time that would preclude the tenance from being classified as transient, then the burglaries would most be reported separately by the occupants.

Larceny/Theft Offenses

Definition

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another person.

Constructive possession is defined as "where one does not have physical custody or possession, but is in a position to exercise dominion or control over a thing".

Larceny and theft mean the same thing in UCR Program. All thefts and attempted thefts are included in this category with one exception: motor vehicle theft. Because of the high volume of motor vehicle thefts, this crime has its own offense category. Local offense classifications such as grand theft, petty larceny, or misdemeanor larceny are reported as larceny-theft. Also, all larceny offenses regardless of the value of the property must be reported.

Pocket picking

The theft of articles from another person's physical possession by stealth where the victim usually does not become aware of the theft.

This type of theft includes removal of such items as wallets from women's purses and men's pockets and usually occurs in a crowded area or on public transportation to disguise the activity. Agencies also classify a theft from a person in an unconscious state, including an individual who is drunk, as Pocket-picking.

Note: If the offender manhandled the victim in any way or used force beyond simple jostling to overcome the victim's resistance, the offense must be classified as a strong-arm robbery,

Purse-snatching

The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

Purse-snatching only applies when the victim has physical possession of the item (i.e. it is on the victim's person).

Note: If the offender used more force than was actually necessary to snatch the purse from the grasp of the victim, or if the victim resists the theft in any way, then a strong-arm robbery occurred rather than a Purse-snatching.

Shoplifting

The theft by someone other than an employee of the victim of goods or merchandise exposed for sale.

This violation assumes the offender had legal access to the premises, and thus, no trespass or unlawful entry was involved. This offense includes thefts of merchandise displayed as part of the stock in trade outside of buildings such as department stores, hardware stores, supermarkets, and fruit stands.

Larceny/Theft Offenses

Theft from Building

A theft from within a building which is either open to the general public or to which the offender has legal access.

Theft from buildings include those from such places as churches, restaurants, schools, libraries, public buildings, and other public and professional offices during the hours when such facilities are open to the public.

Theft From Coin Operated Machine or Device

A theft from a machine or device that is operated or activated by the use of coins.

This includes machines or devices which accept paper money as well as those which accept coins. Examples include candy and food vending machines; telephone coin boxes; parking meters; pinball machines; or washers and dryers located in laundromats where no breaking or illegal entry of the building is involved.

Theft From Motor Vehicles (except Theft of Motor Vehicle Parts or Accessories)

The theft of articles from a motor vehicle, locked or unlocked.

This type of larceny includes thefts from automobiles, trucks, truck trailers, buses, motorcycles, motor homes, or other recreational vehicle. It also includes thefts from any area in the automobile or other type of vehicle, e.g., the trunk, glove compartment, or other enclosure.

Note: Guam statutes (GCA) interpret thefts from motor vehicles as burglaries. For UCR purposes, these offenses must be classified as larcenies.

Theft of Motor Vehicle Parts or Accessories

The theft of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

All Other Larceny

All thefts that do not fit any of the definitions of the specific subcategories of Larceny/Theft listed above.

Motor Vehicle Theft

Definition

The Uniform Crime Reporting (UCR) Program, defined motor vehicle theft as the theft or attempted theft of a motor vehicle, which the UCR Program defines as a self-propelled vehicle that runs on land surface and not on rails, for example, sport utility vehicles, automobiles, trucks, buses, motor scooters, all-terrain vehicles are classified as motor vehicles. This category does not include farm equipment, bulldozers, airplanes, construction equipment, or water craft (motorboats, sailboats, houseboats, or jetskis). Taking a vehicle for temporary use when prior authority has been granted or can be assumed as such as in family situations, rental car agreements, or unauthorized use by chauffeurs and others having lawful access to the vehicle is not classified as motor vehicle thefts.

Motor Vehicle Thefts---- Autos

The category Motor Vehicle Theft--Autos includes the thefts of all sedans, station wagons, coupes, convertibles, sport utility vehicles, minivans, and other similar motor vehicles that serve the primary purpose of transporting people from one place to another. Automobiles used as taxis are also included.

Motor Vehicle Thefts---Trucks and Buses

The category Motor Vehicle Theft---Trucks and Buses includes the theft of those vehicles specifically designed (but not necessarily used) to commercially transport people and cargo. Pick-up trucks and cargo vans, regardless of their use, are included in this category. A self-propelled-motor home is considered a truck.

Motor Vehicle Theft---Other Vehicles

definition such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf carts, all-terrain vehicles, go-carts, mini-bikes, and motorized wheelchairs.

Section III - Offenses Cleared

Offenses Cleared

Cleared by Arrest. An offense is cleared by arrest or solved for crime reporting purposes, when at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution.

Although it makes no physical arrest, an agency can claim an offense is cleared by arrest when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities.

The number of offenses and not the number of persons arrested are counted in the clearances. Agencies cannot report more clearances than offenses in a given month unless they are scoring clearances of offenses that were reported in previous months.

Several crimes may be cleared by the arrest of one person, or the arrest of many persons may clear only one crime. If several persons are involved in the commission of a crime and only one is arrested and charged, only one crime must be listed as cleared by arrest. When the other persons involved in the crime are arrested at a later date, the agency must not record another clearance because the offense was already cleared following the arrest of the first person.

SECTION IV ---- Persons Arrested

Persons Arrested

In the Uniform Crime Reporting (UCR) Program, one arrest is counted for each separate instance in which an individual is arrested, cited, or summoned for criminal acts in Part I and Part II crimes.

AGE, SEX, AND RACE (ASR) OF PERSONS ARRESTED

Basic data concerning the personal characteristics—age, sex, race ---of persons arrested are included in this report. There are two basic arrest reports compiled monthly and annually, *Age, Sex, and Race of Persons Arrested--Under 18 Years of Age* and *Age, Sex, and Race of Persons Arrested--18 Years of Age and Over*. The two reports are similar in content with the exception that the form for persons under 18 years of age includes two additional categories---curfew and loitering law violations and runaways. Data is collected on the number of persons arrested, not the number of charges lodged. For example, a person may be arrested on several charges at one time; in this situation, only one arrest is scored. Likewise, one person may be arrested many times during a month or within a year for similar or different violations. Because of a separation of time between arrests, each arrest is scored separately.

Classifying and Scoring Arrests

For each person arrested, only one crime classification must be used. If a person was arrested for several offenses, both Part I and Part II, only the Part I crimes highest in the hierarchy must be scored. If a person was arrested for several Part I offenses, the most serious offense is scored for that arrest.

SECTION V: Special Reports

Family Offenses, Nonviolent

Unlawful, nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that are not classifiable as other offenses, such as Assault, Incest, and Statutory Rape.

Nonviolent Family Offenses include abandonment, desertion, neglect, nonsupport, nonviolent abuse, and nonviolent cruelty to other family members.. This category also includes the nonpayment of court -ordered alimony, as long as it is not illegal (i.e., considered to be contempt of court) within the reporting jurisdiction.

Juveniles

The Uniform Program considers a juvenile to be an individual under 18 years of age regardless of the state definition. A juvenile arrest is scored when the circumstances are such that if the individual were an adult, an arrest would have been counted.

Incidents in which police contacts a juvenile who has committed no offense or those situations in which police take a juvenile into custody for his or her own protection, e.g., neglect cases are not scored as an arrest. Only violations by young persons where some police action is taken beyond the mere interview, warning, or admonishment are counted as arrests. Statistics are gathered to measure criminal activity, not juvenile court activity.

An adult arrestee is usually held for prosecution for some charge or is released for future handling in court. Depending on the seriousness of the offense and the offender's prior criminal record, a juvenile may also be referred to the probation department or some other branch of the juvenile court.

As previously stated, the word arrest as it applies to juveniles is intended to mean the law enforcement handling of all juveniles who have committed a crime and are taken into custody under such circumstances that, if the juvenile were an adult, an arrest would have been counted.

Driving Under the Influence (DUI)

Driving or operating a motor vehicle or common carrier while mentally or physically impaired as a result of consuming an alcoholic beverage or using drug or narcotic.

Unlawful Condition of the Driver

The driver whose physical and mental condition is impaired by alcohol is a major contributor to the traffic accident problem. Despite the recent reductions in alcohol-related fatalities, alcohol continues to be a major cause of traffic-related deaths.

Alcoholic Influence. The driver who has had too many alcoholic beverages is physiologically affected in such a way as to display the following characteristics:

- Impaired judgment
- Relaxed inhibitions and restraints
- Slow reflexes
- Increased self-confidence
- Decreased ability to distinguish small differences in light and sound
- Loss of muscular coordination and timing
- Decreased ability to give attention required for safe driving.

Not only is the inebriated driver dangerous, but so too is the person who has had several drinks. He may not show marked physical symptoms or appear drunk, yet he may be "under the influence " as legally defined and constitute an unsafe driver. What is even more dangerous is that this type insists on driving, not realizing the extent of his impairment.

Drug Abuse Violations

The violation of laws prohibiting the production, distribution, and/or use of controlled substances.

The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specially those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

The UCR Program collects information on arrests for drug abuse violations based on the narcotics involved. All arrests for violations, including attempts. Arrests categories are subdivided by differentiating between Sale/Manufacturing and Possession.

Sale/Manufacturing

- a. Opium or cocaine and their derivatives (morphine, heroin, codeine)
- b. Marijuana
- c. Synthetic narcotics---manufactured narcotics which can cause try drug addition (Demerol, methadones).
- d. Dangerous nonnarcotic drugs (barbiturates, benzedrine)

Possession

- e. Opium or cocaine and their derivatives (morphine, heroin, codeine)
- f. Marijuana
- g. Synthetic narcotics---manufactured narcotics which can cause try drug addition (Demerol, methadones).
- h. Dangerous nonnarcotic drugs (barbiturates, benzedrine)

SECTION VI:

Law Enforcement Personnel

Law Enforcement Personnel

Guam Police Department

Sworn Personnel

The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically for sworn law enforcement representatives.

The functions of law enforcement agencies are significantly diverse. They patrol local streets and major highways, they protect citizens in the island's smallest villages and large villages, they conduct investigations on offenses around the block or around the island. Law enforcement officers in one area may also enforce traffic laws on local highways. Local police officers may be responsible for investigating violent crimes. These duties have an impact on staffing levels. Adequate staffing levels can be determined only after careful study of the conditions that affect the service requirements in a particular jurisdiction.

Because of the differing service requirements and functions, care should be taken when using the data presented in this section to draw comparisons between and among the staffing levels of law enforcement agencies. What follows is not intended as recommended or preferred officer strength; the data should be viewed merely as guides.

Civilian Employees

Civilian employees provide a myriad of services to the law enforcement and criminal justice agencies. Among other duties, they dispatch officers, they provide administrative and recordkeeping support, and they query local databases.

SECTION VII--APPENDICES

Appendix - I

UCR PART I OFFENSE DEFINITIONS

CRIMINAL HOMICIDE (1)

Criminal Homicide --Murder and Nonegligent Manslaughter (1a)

The willful (nonnegligent) killing of one human being by another.

Criminal Homicide --Manslaughter by Negligence (1b)

The killing of another person through gross negligence.

RAPE --Completed (2)

Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Rape ---Attempts to Commit Rape (2b)

Assaults or attempts to rape.

Historical Rape (2c)

The carnal knowledge of a female forcibly and against her will.

ROBBERY(3)

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Figure: 2 - 37

Robbery --- Firearm (3a)

Robbery---Firearm (3a) includes Robberies and attempts in which any firearm is used as a weapon or employed as a as a means of force to threaten the victim or put the victim in fear.

Robbery---Knife or Cutting Instrument (3b)

Robberies and attempts in which a knife, broken bottle, razor, ice pick,, or other cutting or stabbing instrument is employed as a weapon or as a means of force to threaten the victim or put the victim in fear.

Robbery---Other Dangerous Weapon (3c)

Robberies in which a club, acid, explosive, brass knuckles, Mace, pepper spray, stun guns, Tasers, or other dangerous weapon is employed or its use is threatened. Attempts are included in this category.

Robbery---Strong-arm---Hands, Fists, Feet, Etc. (3d)

Strong-arm---Hands, Fists, Feet, etc. includes muggings and similar offenses in which only personal weapons such as hands, arms, feet, fists, and teeth are employed or their use is threatened to deprive the victim of possessions.

ASSAULT (4)

An unlawful attack by one person upon another.

Aggravated Assault

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Aggravated Assault---Firearm (4a)

Includes all assaults which a firearm of any type is used or is threatened to be used.

Aggravated Assault---Knife or Cutting Instrument (4b)

Includes assaults wherein weapons such as knives, razors, hatchets, cleavers, scissors, glass, broken bottles, arrows, and ice picks are used as cutting or stabbing objects or their use is threatened.

Aggravated Assault ---Other Dangerous Weapons (4c)

Includes assaults resulting from the use or threatened use of any object as a weapon in which serious injury does or could result.

Aggravated Assault---Hands, Fists, Feet, Etc.---Aggravated Injury (4d)

Includes only the attacks using personal weapons such as hands, arms, feet, fists, and teeth, that result in serious or aggravated injury.

Other Assaults---Simple, Not Aggravated (4e)

Includes all assaults which do not involve the use of firearm, knife, cutting instrument, or other weapon and in which the victim did not sustain serious or aggravated injuries.

BURGLARY---BREAKING OR ENTERING (5)

The unlawful entry of a structure to commit a felony or a theft..

Burglary---Forcible Entry (5a)

All offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony.

Burglary---Unlawful Entry---No Force (5b)

The entry of a structure in a Burglary---Unlawful Entry---No Force (5b) situation is achieved by use of an unlocked door or window.

Burglary---Attempted Forcible Entry (5c)

Includes those situations where a forcible entry burglary is attempted but unlawful entry is not achieved.

LARCENY-THEFT (6)

The unlawful taking, carrying, leading away or property from the possession or constructive possession of another.

Pocket-picking (6Xa)

The theft of articles from a person by stealth where the victim usually does not become immediately aware of the theft.

Purse-snatching (6Xb)

Theft grabbing or snatching of a purse, handbag, etc., from the custody of an individual.

Shoplifting (6Xc)

The theft by a person (other than an employee) of goods or merchandise exposed for sale.

Theft From Motor Vehicles (Except Theft of Motor Vehicle Parts and Accessories) (6Xd)

The theft of articles from a motor vehicle, whether locked or unlocked.

Theft of Motor Vehicle Parts and Accessories (6Xe)

The theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner that would make the part an attachment to the vehicle or necessary for the operation of the vehicle.

Theft of Bicycles (6Xf)

The unlawful taking of any bicycle, tandem bicycle, unicycle, etc.

Theft from Buildings (6Xg)

A theft from within a building that is open to the general public or where the offender has legal access.

Theft from Coin-Operated Device or Machine (6Xh)

A theft from a device or machine which is operated or activated by the use of a coin or paper money.

All Other Larceny Theft Not Specifically Classified (6Xi)

All thefts which do not fit the definition of the specific categories of larceny listed above.

MOTOR VEHICLE THEFT (7)

The theft or attempted theft of a motor vehicle.

Motor Vehicle Theft---Autos (7a)

includes the thefts of all sedans, station wagons, coupes, convertibles, sport utility vehicles, minivans, and other similar motor vehicles that serve the primary purpose of transporting people from one place to another.

Motor Vehicle Theft--Trucks and Buses (7b)

Includes the theft of those vehicles specifically designed (but not necessarily used) to commercially transport people and cargo. Pick-up trucks, and cargo vans, regardless of their use, are included in this category.

Motor Vehicle Theft---Other (7c)

Includes all other motor vehicles such as snowmobiles, motorcycles, motor scooters, trail bikes, mopeds, golf cart, all terrain vehicles, go-carts, mini-bikes, and motorized wheelchairs.

ARSON (8)

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Human Trafficking---Commercial Sex Acts (9)

Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

Human Trafficking---Involuntary Servitude (10)

The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into voluntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

UCR PART II OFFENSE DEFINITIONS

Other Assaults (9)

An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack (e.g., intimidation).

Forgery and Counterfeiting (10)

The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered, copied, or imitated thing with the intent to deceive or defraud.

Fraud (11)

The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right. Fraudulent conversion and obtaining of money or property by false pretenses.

Embezzlement (12)

The unlawful misappropriation or misapplication by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control. Generally, the victims of embezzlement offenses are businesses, financial institutions, etc.

Stolen Property: Buying, Receiving, Possessing (13)

Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

Vandalism (14)

To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

Weapons: Carrying, Possessing, Etc. (15)

The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons.

Prostitution and Commercialized Vice (16)

The unlawful promotion of or participation in sexual activities in exchange for anything of value. To solicit customers or transport persons for prostitution purposes, to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed, or to otherwise assist or promote prostitution.

Sex Offenses (17)

This classification includes offenses against chastity, common decency, morals, and the like; all sex offenses except rape and prostitution and commercialized vice.

Drug Abuse Violations (18)

The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance.

Gambling (19)

To unlawfully bet or wager money or something else of value, assist, promote, or operate a game of chance for money or some other stake, possess, or transmit wagering information, transport gambling equipment, devices, or goods, or manufacture, sell, purchase, possess, or tamper with the outcome of a sporting event or contest to gain a gambling advantage

Offenses Against the Family and Children (Nonviolent) (20)

Unlawful nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that are not classifiable as other offenses, such as Assault or Sex Offenses.

Driving Under the Influence (21)

Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

Liquor Laws (22)

The violation of state or local laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages, not including driving under the influence and drunkenness.

Drunkenness (23)

To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. Exclude driving under the influence.

Disorderly Conduct (24)

Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

Vagrancy (25)

The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas, prohibiting persons from remaining in an area or place in an idle or aimless manner, or prohibiting persons from going from place to place without visible means of support.

All Other Offenses (26)

All violations of state or local laws not specifically identified as Part I offenses, except traffic violations.

Suspicion (27)

Arrested for no specific offense and released without formal charges being placed.

Curfew and Loitering Laws (Persons under 18) (28)

Violations of juveniles of local curfew or loitering ordinances.

Runaways (Persons under age 18) (29)

Limited to juveniles taken into protective custody under the provisions of local statutes.

Assisting and Promoting Prostitution (30)

Soliciting customers or transporting persons for prostitution purposes, to own, manage, or operate a dwelling for the purpose of providing a place where prostitution is performed, or to otherwise assist or promote prostitution.

Purchasing Prostitution (31)

Purchasing or trading anything of value for commercial sex acts.

the 1990s, the number of people with a mental health problem has increased in the UK, and the number of people with a mental health problem who are in contact with mental health services has also increased (Mental Health Act 1983, 1997).

There is a growing awareness of the need to improve the lives of people with a mental health problem, and to reduce the stigma and discrimination that they experience. This has led to a number of initiatives, including the development of self-help materials, the establishment of self-help groups, and the development of self-help programmes. The aim of this paper is to describe the development of a self-help programme for people with a mental health problem, and to discuss the implications of this for the future of self-help programmes.

The paper is divided into four sections. The first section describes the background to the development of the self-help programme. The second section describes the development of the self-help programme. The third section discusses the implications of this for the future of self-help programmes. The fourth section discusses the implications of this for the future of self-help programmes.

The first section describes the background to the development of the self-help programme. In the 1990s, the number of people with a mental health problem has increased in the UK, and the number of people with a mental health problem who are in contact with mental health services has also increased (Mental Health Act 1983, 1997).

There is a growing awareness of the need to improve the lives of people with a mental health problem, and to reduce the stigma and discrimination that they experience. This has led to a number of initiatives, including the development of self-help materials, the establishment of self-help groups, and the development of self-help programmes. The aim of this paper is to describe the development of a self-help programme for people with a mental health problem, and to discuss the implications of this for the future of self-help programmes.

The second section describes the development of the self-help programme. The self-help programme was developed by a group of people with a mental health problem, and a group of mental health professionals. The self-help programme was developed in a number of stages, and is described in detail in the following sections.

The third section discusses the implications of this for the future of self-help programmes. The self-help programme has a number of implications for the future of self-help programmes, and these are discussed in detail in the following sections.

The fourth section discusses the implications of this for the future of self-help programmes. The self-help programme has a number of implications for the future of self-help programmes, and these are discussed in detail in the following sections.
